

Experience the SPAN Home

A hands-on demonstration and learning session

Interact with the SPAN Home Experience Center via the SPAN Home app & in-person support from our leadership team.

- Experience a SPAN Home and view live data on circuit usage and energy consumption, solar production, battery backup-status and much more
- Turn circuits on and off in real time from your mobile device
- Prioritize ‘must-have’ and ‘nice-to-have’ circuits instantly with the virtual loads panel—even during a “blackout”
- Learn how much energy the home is sourcing from (and returning back to) the grid

Plus:

- Training sessions for installers and sales associates
- First look at the SPAN Drive Level 2 EV Charger
- Demonstration of dynamic load shedding
- Overview of the company’s unparalleled and outstanding customer experience

Try it on your device

No credit card or account needed

Don't miss the opportunity to experience SPAN!
